Ambassador Mentoring Questionnaire

THANK YOU! for expressing interest in J.C. Matthews' "Ambassador Mentoring"!

Mentoring is more than a teacher-student relationship, but is a fiduciary one in which both parties work together to achieve a given outcome. The mentee's responsibility is to articulate their desired objective and the Mentor's responsibility is to determine how they can help the mentee achieve their objective. In most cases, the mentee identifies someone that possess the requisite characteristics, skills and/or abilities that they desire to cultivate and a plan is developed on how the two can work together to achieve success.

In order to assist me in understanding your goals in objective in the mentoring relationship, please answer the questions below. Once the answers to the questions below are received, you will be contacted concerning the status of your application, and if accepted, further instructions will be provided for initial steps to commence the mentoring process. There may be some common and foundational steps in the process that are required of all mentees, but each mentee's process will be tailored to meet their stated objectives.

Questionnaire:

1. Name: _____
2. Email Address: _____
3. Occupation: _____
4. Status: Married / Single / In Relationship
5. What are your expectations and objectives for entering into this mentoring relationship?
